

# Tailwind CSS

## Assignment Questions

\* Note – all the assignments should be done using Tailwind CSS, set-up using Vite \*

## Task 1: User Login page

### Problem statement –

Create a User login page interface that closely resembles the provided image using Tailwind CSS. The goal is to ensure that your implementation captures every visual detail and layout aspect depicted in the image while maintaining a full mobile responsiveness.

Get the image from ([https://www.freepik.com/free-photo/young-happy-woman-with-good-idea-sign-white-shirt-fullportrait\\_10881326.htm#page=2&query=login&position=11&from\\_view=search&track=sph](https://www.freepik.com/free-photo/young-happy-woman-with-good-idea-sign-white-shirt-fullportrait_10881326.htm#page=2&query=login&position=11&from_view=search&track=sph))

### Expected output –

large screen (minimum width of 1024px)

The large screen mockup shows a login page with the title "Login" and the subtitle "Enter your credential to access your account". It features a "Login with Google" button, an "Or" separator, an "Email Address" field with the placeholder "email@gmail.com", a "Password" field with the placeholder "Password", and a "Forgot Password?" link. A blue "Login" button is at the bottom, followed by the text "Don't have an account? Register here". To the right of the form is a large, faint "LS" watermark and a photo of a young woman in a white shirt pointing upwards.

Small screen (minimum width of 640px)

The small screen mockup shows the same login page as the large screen, but with a different layout. The "Login with Google" button is at the top, followed by the "Or" separator. The "Email Address" field is below, with the placeholder "email@gmail.com". The "Password" field is below that, with the placeholder "Password". The "Forgot Password?" link is to the right of the password field. The blue "Login" button is at the bottom, followed by the text "Don't have an account? Register here".

Extra large screen (minimum width of 1280px)

### Login

Enter your credential to access your account

 Login with Google

Or

Email Address

Password

[Forgot Password?](#)

Login

Don't have an account? [Register here](#)

## Task 2: Image gallery

### Problem statement -

Create a responsive image gallery using Tailwind CSS. The gallery should display a grid of images that adjust their size and layout based on the screen size.

### Expected output -

### Expected output -

large screen (minimum width of 1024px)

Extra large screen (minimum width of 1280px)

Small screen (minimum width of 640px)

## Task 3: Dashboard

### Problem statement -

Create a non-responsive dashboard using Tailwind CSS, where the dashboard should include a sidebar navigation menu and a main contain area. (Making it responsive is optional).

Feel free to use any icons from any place, Your goal is to design a visually appealing and user-friendly

dashboard interface that is not responsive.

### Expected output -
